INDEPENDENT AUDITOR'S REPORT

To the Members of
ORIENT CABLES (INDIA) LIMITED
(Formerly known as Orient Cables (India) Private Limited)

Report on the Audit of the Standalone Financial Statements

1. Opinion

We have audited the accompanying standalone financial statements of **Orient Cables (India) Limited** (Formerly known as Orient Cables (India) Private Limited) ("the Company"), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and its profit and including other comprehensive income, changes in equity and its cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SA's") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

3. Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the financial year ended March 31, 2026. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there is no key audit matter to communicate in our report.

4. Information Other than the standalone financial statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexure to Board's Report and Shareholder's Information but does not include the standalone financial statements and our auditor's report thereon. The other information comprising the above documents is expected to be made available to us after the date of this auditor's report.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

5. Management's Responsibility for the standalone financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

6. Auditor's Responsibilities for the Audit of the standalone financial statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that,

individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended March 31, 2026 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

7. Report on Other Legal and Regulatory Requirements

- A. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act 2013, we give in the "Annexure-A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- B. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with relevant rules issued thereunder;

On the basis of the written representations received from the directors as on March 31, 2026

taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act;

- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B";
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanation given to us, the remuneration paid / provided by the Company to its directors during the year is in accordance with the provisions of section 197 read with Schedule V of the Act;

- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements- Refer note 44 to the standalone financial statements;
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- iv. (a) The Management has represented that, to the best of its knowledge and belief, as disclosed in note 59 (xv) to the standalone financial statements, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entity(ies) ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (b) The Management has represented, that, to the best of its knowledge and belief, as disclosed in note 59 (xvi) to the standalone financial statements, no funds (which are material either individually or in the aggregate) have been received by the Company from any person(s) or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The Company has not declared or paid any dividend during the year.
- vi. Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account for the financial year ended March 31, 2026 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software, except that audit trail was not enabled at the database level to log any direct data changes. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls Over Financial Reporting under Clause(i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

**To the members of
ORIENT CABLES (INDIA) LIMITED**

(Formerly known as Orient Cables (India) Private Limited)

We have audited the internal financial controls over financial reporting of **Orient Cables (India) Limited** (Formerly known as Orient Cables (India) Private Limited) ("the Company") as of March 31, 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the guidance note on Audit of Internal financial controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with the generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

ORIENT CABLES (INDIA) LIMITED

(Formerly known as Orient Cables (India) Private Limited)

(CIN: U31300DL2005PLC140809)

Notes Forming Part of the Standalone Financial Statements for the year ended March 31, 2026

1. CORPORATE INFORMATION

Orient Cables (India) Limited {Formerly known as Orient Cables (India) Private Limited} 'the Company' is a public limited company domiciled and incorporated in India under the provisions of the Companies Act, ('the Act') applicable in India. The registered office of the Company is located at Second floor, House No. 8, Block D, Ashok Vihar Phase-1 New Delhi 110052, Established on September 15, 2005.

The Company is engaged in manufacturing and sale of cables (including Networking Cables, Power Cables, Optical Fiber Cables etc) and allied products.

Pursuant to resolution passed by the Members in the Extraordinary General Meeting dated November 25, 2024 and as approved by Registrar of the Company w.e.f. December 13, 2024 the Company has been converted from Private Limited Company into a Public Limited Company including adoption of new Memorandum of Association and new Articles of Association as applicable to Public Company in place of existing Memorandum of Association and Articles of Association of the Company.

2. RECENT PRONOUNCEMENTS

The Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under the Companies (Indian Accounting Standards) Rules, as issued from time to time. MCA vide notification no. G.S.R. 291(E) dated May 7, 2025 and notification no. G.S.R. 549(E) dated August 13, 2025, issued the Companies (Indian Accounting Standards) Amendment Rules, 2025, amending certain existing Indian Accounting Standards ("Ind AS").

A. Amendments effective for annual reporting periods beginning on or after April 1, 2025:

The amendments effective for annual reporting periods beginning on or after April 1, 2025 include changes to Ind AS 21 – The Effects of Changes in Foreign Exchange Rates, Ind AS 1 – Presentation of Financial Statements, Ind AS 7 – Statement of Cash Flows, Ind AS 107 – Financial Instruments: Disclosures, and Ind AS 12 – Income Taxes.

The Company has evaluated the above amendments and does not expect these amendments to have a material impact on its standalone financial statements.

B. Amendments issued but not yet effective:

Further, certain amendments to Ind AS 1 – Presentation of Financial Statements relating to classification of liabilities in case of breach of covenants are effective for annual reporting periods beginning on or after April 01, 2026. The Company is currently evaluating the impact of these amendments on its standalone financial statements.

3. BASIS OF PREPARATION OF STANDALONE FINANCIAL STATEMENTS**3.1 Compliance with Ind AS**

These Standalone Financial Statements ('standalone financial statements') have been prepared in accordance with the Indian Accounting Standard ('Ind AS') notified under section 133 of the

ORIENT CABLES (INDIA) LIMITED

(Formerly known as Orient Cables (India) Private Limited)

(CIN: U31300DL2005PLC140809)

Notes Forming Part of the Standalone Financial Statements for the year ended March 31, 2026

Companies Act, 2013, read together with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, as amended by the Companies (Indian Accounting Standards) Rules, 2016 and other relevant provisions of the Act, to the extent applicable.

The accounting policies, as set out in the following paragraphs of this note, have been consistently applied, by the Company, to all the periods presented in the said Standalone Financial Statements.

The preparation of the said Standalone Financial Statements requires the use of certain critical accounting estimates and judgements. It also requires the management to exercise judgement in the process of applying the Company's accounting policies. The areas where estimates are significant to the Standalone Financial Statements, or areas involving a higher degree of judgement or complexity, are disclosed in Note no. 41.

The Standalone Financial Statements are based on the classification provisions contained in Ind AS 1, 'Presentation of Financial Statements' and division II of schedule III of the Companies Act 2013.

Further, for the purpose of clarity, various items are aggregated in the statement of profit and loss and balance sheet. Nonetheless, these items are dis-aggregated separately in the notes to the Standalone Financial Statements, where applicable or required. All the amounts included in the Standalone Financial Statements have been rounded off to the nearest Lakhs upto two decimals, as required by General Instructions for preparation of Standalone Financial Statements in Division II of Schedule III to the Companies Act, 2013, except per share data and unless stated otherwise.

These Standalone Financial Statements are approved for issue by the Board of Directors on June 30, 2026. The revision to these Standalone Financial Statements is permitted by the Board of Directors after obtaining necessary approvals or at the instance of regulatory authorities as per provisions of the Act.

3.2 Historical Cost Convention

The Standalone Financial Statements have been prepared on the accrual and going concern basis, and the historical cost convention except where the Ind AS requires a different accounting treatment. The principal variations from the historical cost convention relate to financial instruments classified as fair value for the followings:

- (a) certain financial assets and liabilities and contingent consideration that is measured at fair value;
- (b) assets held for sale measured at fair value less cost to sell;
- (c) defined benefit plans plan assets measured at fair value; and

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

3.3 Use of estimates and judgements

The preparation of these Standalone Financial Statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and judgements that affect the reported balances of assets and liabilities, disclosures relating to

contingent liabilities as at the date of the Standalone Financial Statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised, and future periods are affected.

3.4 Current versus non-current classification

The Company presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is treated as current when it is:

- a) Expected to be realised or intended to be sold or consumed in normal operating cycle
- b) Held primarily for the purpose of trading, or
- c) Expected to be realised within twelve months after the reporting period other than for (a) above, or
- d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- a) It is expected to be settled in normal operating cycle
- b) It is held primarily for the purpose of trading
- c) It is due to be settled within twelve months after the reporting period other than for (a) above, or
- d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

3.5 Fair Value Measurement

The Company measures financial instruments, such as, derivatives at fair value at each Balance Sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

The Company categorizes assets and liabilities measured at fair value into one of three levels as follows:

ORIENT CABLES (INDIA) LIMITED*(Formerly known as Orient Cables (India) Private Limited)***(CIN: U31300DL2005PLC140809)****Notes Forming Part of the Standalone Financial Statements for the year ended March 31, 2026**

- **Level 1 — Quoted (unadjusted):** This hierarchy includes financial instruments measured using quoted prices.
- **Level 2 - Inputs other than quoted prices** included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- **Level 3 - They are unobservable inputs** for the asset or liability reflecting significant modifications to observable related market data or Company's assumptions about pricing by market participants. Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION**4.1. Property Plant and Equipment ('PPE')**

An item is recognised as an asset, if and only if, it is probable that the future economic benefits associated with the item will flow to the Company and its cost can be measured reliably. PPE are stated at actual cost less accumulated depreciation and impairment loss, if any. Actual cost is inclusive of freight, installation cost, duties, taxes and other incidental expenses for bringing the asset to its working conditions for its intended use (net of tax credit, if any) and any cost directly attributable to bring the asset into the location and condition necessary for it to be capable of operating in the manner intended by the Management. It includes professional fees and borrowing costs for qualifying assets.

Property, Plant and Equipment and intangible assets are not depreciated or amortized once classified as held for sale.

Significant Parts of an item of PPE (including major inspections) having different useful lives & material value or other factors are accounted for as separate components. All other repairs and maintenance costs are recognized in the statement of profit and loss as incurred.

Depreciation of these PPE commences when the assets are ready for their intended use. The estimated useful lives and residual values are reviewed on an annual basis and if necessary, changes in estimates are accounted for prospectively. Depreciation on subsequent expenditure on PPE arising on account of capital improvement or other factors is provided for prospectively over the remaining useful life.

Depreciation is provided pro-rata to the period of use on the straight line method based on the estimated useful life of the assets. The residual values are not more than 5% of the original cost of the assets. The useful life of property, plant and equipment are as follows: -

Asset Class	Useful Life
Building	30 Years
Computer	3 Years
Plant & Machinery -Double Shift	8 Years
Plant & Machinery - Single Shift	15 Years
Vehicles	8 Years
Furniture & Fixtures	8 Years
Other Assets (a)	8 Years

Computer Software	8 Years
Trademark	Indefinite

Note:

- a. For these classes of assets based on internal assessment and technical evaluation, the management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of Companies Act 2013.
- b. Depreciation on the amount capitalized on up-gradation of the existing assets is provided over the balance life of the original asset.
- c. An item of PPE is de-recognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of PPE is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

4.2. Intangible Assets and amortisation

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. Intangible assets are stated at original cost net of tax/duty credits availed, if any, less accumulated amortisation and cumulative impairment. Administrative and other general overhead expenses that are specifically attributable to acquisition of intangible assets are allocated and capitalised as a part of the cost of the intangible assets.

Amortisation periods and methods: Intangible assets are amortised on straight line basis over a period ranging between 5-10 years which equates its economic useful life.

The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is different from previous estimates, the change is accounted for prospectively as a change in accounting estimate.

➤ De-recognition of intangible assets

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognized in the Statement of Profit and Loss when the asset is derecognized.

a. Intangible assets under development

All costs incurred in development, are initially capitalized as Intangible assets under development - till the time these are either transferred to Intangible Assets on completion or expensed as Software Development cost (including allocated depreciation) as and when determined of no further use.

4.3. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. The financial instruments are recognised in the

balance sheet when the Company becomes a party to the contractual provisions of the financial instrument. The Company determines the classification of its financial instruments at initial recognition.

1. Financial Assets***Initial recognition and measurement***

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories based on business model of the entity:

- Debt instruments at amortized cost.
- Debt instruments at fair value through other comprehensive income (FVTOCI).
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL).
- Equity instruments measured at fair value through other comprehensive income (FVTOCI).

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method.

Debt instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously

Notes Forming Part of the Standalone Financial Statements for the year ended March 31, 2026

recognized in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

Any debt instrument, that does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Equity investments (Other than investment in subsidiary)

All other equity investments are measured at fair value. For Equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. This amount is not recycled from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in Statement of Profit and Loss.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

Investments in Mutual Funds

Investments in mutual funds are measured at fair value through profit or loss (FVTPL)

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

De-recognition

A financial asset is de-recognized only when

The Company has transferred the rights to receive cash flows from the financial asset or

- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, it evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is de-recognized.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

Impairment of financial assets

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. In determining the allowances for doubtful trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix considers historical credit loss experience and is adjusted for forward looking information. For all other financial assets, expected credit losses are measured at an amount equal to the 12-months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/expense in the statement of profit and loss (P&L).

II. Financial liabilities

Financial liabilities and equity instruments issued by the company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Initial recognition and measurement

Financial liabilities are recognised when the company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss.

Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the statement of profit and loss.

Trade and Other Payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial period which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at the initial value and subsequently measured at amortised cost using the effective interest method.

Loans and Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Financial Guarantee Contracts

Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

III. Derivative Financial Instruments:

The Company uses derivative financial instruments, such as forward currency contracts, to mitigate its foreign currency fluctuation risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into, and are subsequently remeasured at fair value at each reporting date. Gain or loss arising from changes in the fair value is recognised in the Statement of Profit and Loss.

Derivatives are carried as financial assets when the fair value is positive, and as financial liabilities when the fair value is negative.

The Company enters into derivative financial instruments, viz., foreign exchange forward contracts, interest rate swaps and cross currency swaps to manage its exposure to interest rate, foreign exchange rate risks and commodity prices. The Company does not hold derivative financial instruments for speculative purposes.

IV. Hedge Accounting:

The Company designates certain hedging instruments in respect of foreign currency risk as cash flow hedges. At the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Company's risk management objective and strategy for undertaking hedge, the hedging/economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows, and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

The effective portion of changes in the fair value of the designated portion of derivatives that qualify as cash flow hedges is recognised in Other Comprehensive Income and accumulated under the heading of cash flow hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in the Statement of Profit and Loss.

(Formerly known as Orient Cables (India) Private Limited)

(CIN: U31300DL2005PLC140809)

Notes Forming Part of the Standalone Financial Statements for the year ended March 31, 2026

Amounts previously recognised in Other Comprehensive Income and accumulated in other equity relating to (effective portion as described above) are reclassified to the Statement of Profit and Loss in the periods when the hedged item affects statement of profit & loss. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, such gains and losses are transferred from equity and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in Other Comprehensive Income and accumulated in other equity at that time remains in other equity, and is recognised when the forecast transaction is ultimately recognised in the Statement of Profit and Loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in other equity is recognised immediately in the Statement of Profit and Loss.

4.4. Impairment of Non-Financial Assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use.

Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are considered. If no such transactions can be identified, an appropriate valuation model is used. Impairment losses of continuing operations, including impairment on inventories, are recognized in the statement of profit and loss.

A previously recognized impairment loss (except for goodwill) is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited to the carrying amount of the asset.

4.5. Inventories**a) Basis of valuation:**

1. Inventories including work-in-progress, other than scrap materials are valued at lower of cost and net realizable value after providing cost of Obsolescence, if any. The cost is determined using weighted average cost method.
2. Inventory of scrap materials have been valued at net realizable value.

(CIN: U31300DL2005PLC140809)

Notes Forming Part of the Standalone Financial Statements for the year ended March 31, 2026

b) Method of valuation:

1. Cost of raw materials comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.
2. Cost of finished goods and work-in-progress includes direct fixed and variable production overheads and indirect taxes as applicable. Fixed production overheads are allocated on the basis of normal capacity of production facilities.
3. Cost of traded goods comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.
4. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

4.6. Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying asset are capitalized as part of cost of such asset. Other borrowing costs are recognized as an expense in the period in which they are incurred.

Borrowing costs consists of interest and other costs that an entity incurs in connection with the borrowing of funds.

4.7. Investments in subsidiaries, associates and joint ventures

The Company records the investments in subsidiaries, associates and joint ventures at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount.

When the Company issues financial guarantees on behalf of subsidiaries, initially it measures the financial guarantees at their fair values and subsequently measures at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognized less cumulative amortization.

The Company records the initial fair value of financial guarantee as deemed investment with a corresponding liability recorded as deferred revenue. Such deemed investment is added to the carrying amount of investment in subsidiaries.

Deferred revenue is recognized in the Statement of Profit and Loss over the remaining period of financial guarantee issued.

The Company reviews its carrying value of investments carried at cost (net of impairment, if any) annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for in the statement of profit and loss.

4.8. Foreign Currency Transactions

The functional currency of the Company is Indian Rupees which represents the currency of the economic environment in which it operates.

ORIENT CABLES (INDIA) LIMITED

(Formerly known as Orient Cables (India) Private Limited)

(CIN: U31300DL2005PLC140809)

Notes Forming Part of the Standalone Financial Statements for the year ended March 31, 2026

Transactions in currencies other than the Company's functional currency are recognized at the rates of exchange prevailing at the dates of the transactions. Monetary items denominated in foreign currency at the year end and not covered under forward exchange contracts are translated at the functional currency spot rate of exchange at the reporting date.

Any income or expense on account of exchange difference between the date of transaction and on settlement or on translation is recognized in the profit and loss account as income or expense.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation difference on such assets and liabilities carried at fair value are reported as part of fair value gain or loss.

In case of forward exchange contracts, the premium or discount arising at the inception of such contracts is amortized as income or expense over the life of the contract. Further exchange difference on such contracts i.e. difference between the exchange rate at the reporting /settlement date and the exchange rate on the date of inception of contract/the last reporting date, is recognized as income/expense for the period.

4.9. Taxation

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses, if any.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Financial Statement. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

The carrying amount of deferred tax assets are reviewed at the end of each reporting period and are recognized only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax liabilities are not recognized for temporary differences between the carrying amount and tax bases of investments in subsidiaries, where the Company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets are not recognized for temporary differences between the carrying amount and tax bases of investments in subsidiaries, associates and interest in joint arrangements where it is not

probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilized.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

4.10. Revenue Recognition

The company recognizes revenue in accordance with Ind- AS 115. Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration that the Company expects to receive in exchange for those products or services.

Revenues in excess of invoicing are classified as contract assets (which may also refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which may also refer to as unearned revenues).

The Company presents revenues net of indirect taxes in its Statement of Profit and loss.

The specific recognition criteria from various stream of revenue is described below:

- a. **Revenue from the sale of goods** is recognized upon transfer of control of promised products, usually on delivery of the goods (i.e. when performance obligation is satisfied) at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of returns and allowances, trade discounts and volume rebates offered by the Company as part of the contract.
- b. **Revenue from Services** is recognized when respective service is rendered and accepted by the customer.
- c. **Capacity swaps**
The exchange of network capacity is recognised at fair value unless the transaction lacks commercial substance or the fair value of neither the capacity received nor the capacity given is reliably measurable.
- d. **Interest income**
For all debt instruments measured either at amortized cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR).
- e. **Rental income**
Rental income arising from operating leases or on investment properties is accounted for on a straight-line basis over the lease terms and is included in other non-operating income in the statement of profit and loss.
- f. **Insurance Claims**
Insurance claims are accounted for as and when admitted by the concerned authority.

g. Dividend Income

Dividend income on investments is recognised when the right to receive dividend is established.

h. Other Income

Other Income is accounted for on accrual basis except, where the receipt of income is uncertain.

4.11. Employee Benefits**Short Term Employee Benefits**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Post-employment obligations**i. Defined contribution plans**

Provident Fund and employees' state insurance schemes

All employees of the Company are entitled to receive benefits under the Provident Fund, which is a defined contribution plan. Both the employee and the employer make monthly contributions to the plan at a predetermined rate (presently 12%) of the employees' basic salary. These contributions are made to the fund administered and managed by the Government of India. In addition, some employees of the Company are covered under the employees' state insurance schemes, which are also defined contribution schemes recognized and administered by the Government of India.

The Company's contributions to both these schemes are expensed in the Statement of Profit and Loss. The Company has no further obligations under these plans beyond its monthly contributions.

ii. Defined benefit plans**Gratuity**

The Company provides for gratuity obligations through a defined benefit retirement plan (the 'Gratuity Plan') covering all employees. The Gratuity Plan provides a lump sum payment to vested employees at retirement or termination of employment based on the respective employee salary and years of employment with the Company. The Company provides for the Gratuity Plan based on actuarial valuations in accordance with Indian Accounting Standard 19 (revised), "Employee Benefits". The present value of obligation under gratuity is determined based on actuarial valuation using Project Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

Defined retirement benefit plans comprising of gratuity, un-availed leave, post-retirement medical benefits and other terminal benefits, are recognized based on the present value of defined benefit obligation which is computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These are accounted either as current employee cost or included in cost of assets as permitted.

Leave Encashment

No provision for Leave encashment due to the employees has been made and the same shall be accounted for on payment basis at the time of encashment/payment or claim made by the employee.

iii. Actuarial gains and losses are recognized in OCI as and when incurred.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest as defined above), are recognized in other comprehensive income except those included in cost of assets as permitted in the period in which they occur and are not subsequently reclassified to profit or loss.

The retirement benefit obligation recognized in the Standalone Financial Statements represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of reductions in future contributions to the plans.

Termination benefits

Termination benefits are recognized as an expense in the period in which they are incurred.

4.12. Leases

As a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- i. the contract involves the use of an identified asset
- ii. the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- iii. the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

(Formerly known as Orient Cables (India) Private Limited)

(CIN: U31300DL2005PLC140809)

Notes Forming Part of the Standalone Financial Statements for the year ended March 31, 2026

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs. Lease period for Building taken on lease is ranging from 2 to 3 Years.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The company's lease liabilities are included in Other financial liabilities.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

4.13. Segment Reporting***Identification of segments:***

Operating segments are reported in a manner consistent with the internal financial reporting provided to the Chief Operating Decision Maker (CODM) i.e. Chief Executive Officer. CODM monitors the operating results of all product segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit and loss and is measured consistently with profit and loss in the Standalone Financial Statements. The primary reporting of the Company has been performed on the basis of business segments. The analysis of geographical segments is based on the areas in which the Company's products are sold or services are rendered.

Allocation of common costs:

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated items:

The Corporate and other segments include general corporate income and expense items, which are not allocated to any business segment.

ORIENT CABLES (INDIA) LIMITED*(Formerly known as Orient Cables (India) Private Limited)***(CIN: U31300DL2005PLC140809)****Notes Forming Part of the Standalone Financial Statements for the year ended March 31, 2026****4.14. Cash & Cash Equivalents**

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

4.15. Employee Share Based Payment

Equity- settled share- based payments to employees are measured at the fair value of the employee stock options at the grant. The fair value determined at the grant date of the equity- settled share - based payments is amortised over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in the Statement of Profit and Loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the Share based payment reserve outstanding.

The Company measures the cost of equity- settled transactions with employees using Black- Scholes model to determine the fair value of the liability incurred on the grant date. Estimating fair value for share- based payment transactions require determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant.

This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

The dilutive effect, if any outstanding options is reflected as additional share dilution in computation of diluted earnings per share.

4.16. Prior Period Items

The Company has adopted following materiality threshold limits in the recognition of Prior period expenses/incomes:

No.	Threshold Items	Threshold Value
i.	Identification based on individual limits	Rs. 10 lakhs
ii.	Restatement based on overall limits	1% of Total Revenue of Previous FY

4.17. Provision, Contingent Liabilities and Contingent Assets

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the obligation, its carrying amount is the present value of those cash flows.

d) Vendor Financing - Supplier Finance Arrangement

The Company, in case of certain suppliers, enjoys extended credit period by using its credit line after the due date of the invoice. The interest cost in such case is borne by the Company and is disclosed as finance cost. Since these are in nature of working capital loan/ short term loan, such amounts are disclosed as borrowings.

The Company decides which invoices will be financed. The financier pays the supplier on the commercially agreed due date. The Company repays the bank on due date of invoices along with interest rate 6.40% to 6.90% and 2M EBR (Repo Rate) + spread respectively. No guarantees or collateral are provided under the arrangement.

The Company has no significant concentration of liquidity risk with any individual finance provider.

There were no material business combinations or foreign exchange differences that would affect the liabilities under the supplier finance arrangement in either period.

The carrying amounts of liabilities under the supplier finance arrangement are considered to be reasonable approximations of their fair values, due to their short-term nature.

The Company has not provided comparative information in respect of the amendments to Ind AS 7 and Ind AS 107 relating to supplier finance arrangements, as it has applied the transitional relief available on initial adoption of these amendments, which allows entities not to present

41 Critical accounting estimates and judgments

The estimates and judgements used in the preparation of Standalone financial statements are continuously evaluated by the Company, and are based on historical experience and various other assumptions and factors (including expectations of future events), that the Company believes to be reasonable under the existing circumstances. The said estimates and judgements are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date. Although the Company regularly assesses these estimates, actual results could differ materially from these estimates – even if the assumptions underlying such estimates were reasonable when made, if these results differ from historical experience or other assumptions do not turn out to be substantially accurate. The changes in estimates are recognised in the financial statements in the year in which they become known.

The areas involving critical estimates or judgments are:

1. Useful lives of property, plant and equipments **Note No. 4.1 & 5**
2. Measurement of Lease liabilities and Right of Use Asset **Note No. 4.12 & 7**
3. Useful life of Intangible asset **Note No. 4.2 & 8**
4. Taxes **Note No. 4.9, 25 & 31**
5. Measurement defined benefit obligation **Note No. 4.11 & 42**
6. Measurement of Fair Values and Expected Credit Loss (ECL) **Note No. 4.3, 14 & 15**
7. Estimation of Provisions & Contingent liabilities **Note No. 4.17 & 44**
8. Measurement of share based payments **Note No. 4.15 & 60**

(G) Material Civil Litigation

(i) Orient Electric Limited ("Orient Electric") filed an application under Section 16(1) of the Companies Act, 2013 for rectification of the corporate name of our Company. Our company filed a preliminary reply dated September 18, 2025 claiming that the application was liable to be dismissed. Our company further filed a detailed reply on October 10, 2025 in furtherance to the preliminary reply. The matter has been heard by the Ld. Regional Director on September 29, 2025, December 11, 2025, January 19, 2026, February 10, 2026 on which date the Ld. Regional Director was on leave and the matter was adjourned to March 11, 2026. Following the hearing held on March 11, 2026, the matter was listed on March 25, 2026, April 14, 2026 and May 6, 2026. On March 25, 2026 and May 6, 2026, adjournments were sought in view of the ongoing settlement discussions between the parties. The hearing scheduled on April 14, 2026 could not be taken up as it was a government holiday and the office of the Regional Director remained closed, resulting in no hearings being conducted on that date. On May 22, 2026, it was noted that the matter had been assigned to a newly appointed Regional Director. The newly appointed Regional Director has thereafter listed the matter on July 3, 2026. The matter is currently pending.

49 Financial Risk Management Objectives and Policies

The Company's principal financial liabilities comprise trade and other payables, lease liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include cash and cash equivalents that derive directly from its operations.

The Company's business activities expose it to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Company's senior management has the overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

Management of Liquidity Risk

Liquidity risk is the risk that the Company will face in meeting its obligations associated with its financial liabilities. The Company's approach to managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions. The following table shows the maturity analysis of the Company's financial liabilities based on contractually agreed undiscounted cash flows as at the Balance Sheet date.

Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Financial instruments affected by market risk include loans and borrowings, deposits and investments.

POTENTIAL IMPACT OF RISK	MANAGEMENT POLICY	SENSITIVITY TO RISK
INTEREST RATE RISK		
Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.	In order to manage its interest rate risk, the Company diversifies its portfolio in accordance with the risk management policies.	As an estimation of the approximate impact of the interest rate risk, with respect to financial instruments, the Company has calculated the impact of a 1% change in interest rates. a) A 1% increase in interest rates would have led to approximately an additional Rs. 8.60 Lakhs gain for year ended March 31, 2026 (Rs. 9.39 Lakhs gain for year ended March 31, 2025) in interest income. A 1% decrease in interest rates would have led to an equal but opposite effect. b) A 1% increase in interest rates would have led to approximately an additional Rs. 233.18 Lakhs loss for year ended March 31, 2026 (Rs. 113.45 Lakhs loss for year ended March 31, 2025) in interest expense. A 1% decrease in interest rates would have led to an equal but opposite effect.
a) Company has Fixed deposits with Banks amounting to Rs. 859.51 Lakhs as at March 31, 2026 (Rs. 939.48 Lakhs as at March 31, 2025). Interest Income earned on fixed deposit for year ended March 31, 2026 is Rs. 52.25 Lakhs (Rs. 34.66 Lakhs for the year ended March 31, 2025)		
b) Company has Borrowing from Banks amounting to Rs. 23,318.19 Lakhs as at March 31, 2026 (Rs. 11,344.94 Lakhs as at March 31, 2025). Interest Expenses on such borrowings from Banks for the year ended March 31, 2026 is Rs. 1,093.32 Lakhs (Rs. 451.14 Lakhs for the year ended March 31, 2025).		

Interest rate sensitivity has been calculated assuming the borrowings outstanding at the reporting date have been outstanding for the entire reporting year.

POTENTIAL IMPACT OF RISK	MANAGEMENT POLICY	SENSITIVITY TO RISK
PRICE RISK		
The Company is exposed to price risk arising from its investments in mutual funds classified as financial assets measured at Fair Value Through Profit or Loss (FVTPL). These investments are valued based on the Net Asset Value (NAV) declared by the respective fund houses at the reporting date. Consequently, changes in the NAV due to market movements may impact the Company's profit before tax.	The Company manages its exposure to price risk by investing surplus funds in a diversified portfolio of mutual funds after evaluating the credit quality, investment objectives and liquidity profile of the schemes. The investment portfolio is periodically reviewed and monitored by the management to ensure that the associated market risks remain within acceptable limits.	As an estimation of the approximate impact of the price risk, with respect to financial instruments, the Company has calculated the impact of a 1% change in NAV. A reasonably possible 1% increase in the Net Asset Value (NAV) of mutual fund investments at the reporting date, with all other variables held constant, would have resulted in an approximately Rs. 7.89 lakhs increase in profit before tax as at March 31, 2026 (March 31, 2025: Rs. 7.49 lakhs). A 1% decrease in the NAV would have resulted in an equal but opposite effect.
The Company has investment in mutual funds amounting to Rs. 788.96 Lakhs as at March 31, 2026 (Rs. 748.60 Lakhs as at March 31, 2025).		

Foreign Currency Risk:

The Company operates internationally and undertakes transactions denominated in foreign currencies, primarily USD and Euro. Consequently, the Company is exposed to foreign currency risk arising from export revenues, import of raw materials and capital goods, and other foreign currency commitments.

Exchange rate fluctuations may impact the Company's revenue, costs, and outstanding receivables/payables denominated in foreign currencies. The Company manages its foreign exchange exposure in accordance with its approved risk management policy. Foreign currency exposure at the end of the reporting year and its sensitivity analysis: refer note no. 51.

Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its financing activities, including deposits with banks and financial institutions and other financial instruments.

Trade Receivables

The Company trades with recognized and credit worthy third parties. It is the Company's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an on-going basis with the result that the Company's exposure to bad debts is not significant. At March 31, 2026 the Company had top 10 customers that owed the Company more than Rs. 16,298.09 Lakhs (March 31, 2025: Rs. 11,450.27 Lakhs) and accounted for approximately 74.15 % (March 31, 2025: 63.98%) of all the receivables outstanding. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note no. 15. The Company does not hold collateral as security. The Company is exposed to credit risk in the event of non-payment by customers. Credit risk concentration with respect to trade receivables is mitigated by the Company's large customer base. Adequate expected credit losses are recognized as per the assessments. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

During the year, the Company assigned certain trade receivables under a limited recourse factoring arrangement, which have been derecognised in accordance with Ind AS 109. Accordingly, such receivables are not included in the Company's maximum credit risk exposure. (Refer Note 15.8).

The Company invests surplus funds in debt mutual fund schemes. These schemes mainly invest in high-quality debt securities and, accordingly, the Company considers the associated credit risk to be low.

Security deposits with landlords, which are recoverable on completion of lease term or termination of lease arrangements where the credit risk is envisaged to be minimal and recoverability of such amount is monitored at regular intervals. The Company has not acquired any credit impaired asset.

The risk of default in respect of loans granted to the subsidiary is considered negligible, considering the financial position and ongoing support arrangements.

Financial Instruments and Cash Deposits

Credit risk from balances with banks and financial institutions is managed by the management in accordance with the Company's policy. The Company maintains its Cash and cash equivalents and Bank deposits with reputed and highly rated banks. Hence, there is no significant credit risk on such deposits. Counterparty credit limits are reviewed by the management on an annual basis, and may be updated throughout the year. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The Company's maximum exposure to credit risk for the components of the balance sheet at March 31, 2026 is the carrying amounts as illustrated in Note no. 11.17 & 19.

Capital Management

Capital includes issued equity capital and Securities premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to ensure the Company's ability to continue as a going concern and maximize the shareholder value.

Management has assessed that Cash and cash equivalents, Other balances with banks, Loans, Trade receivables, Other financial assets, Borrowings, Lease liabilities, Trade payables and Other financial liabilities with short term-maturities carried at amortized cost (Level 3) approximate their carrying amounts largely due to the short-term maturities of these instruments.

Fair value hierarchy :

The fair value measurement hierarchy of the company's assets and liabilities are as follows:

	Level 1 As at March 31, 2026	Level 2 As at March 31, 2026	Level 3 As at March 31, 2026
Financial assets			
At fair Value through Profit or Loss			
Investment	788.96	-	-
Financial liabilities			
At fair Value through Profit or Loss			
Foreign currency forward contracts	-	31.44	-

	Level 1 As at March 31, 2025	Level 2 As at March 31, 2025	Level 3 As at March 31, 2025
Financial assets			
At fair Value through Profit or Loss			
Investment	748.60	-	-

The financial instruments are categorized into three levels based on the inputs used to arrive at fair value measurements as described below:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than the quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Valuation Methodology

All financial instruments are initially recognized and subsequently re-measured at fair value as described below :

(a) Investment in mutual funds are valued using the closing net assets value (NAV) as at the Balance Sheet date. Foreign currency forwards are valued based on the forward exchange rates provided by the bank as at the balance sheet date.

(b) Trade receivables, cash and cash equivalents, borrowings, trade payables and other financial assets and liabilities approximate the carrying value due to their short term maturities. Fair value is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in forced or liquidation sale.

(c) The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Company uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting year.

(d) Fair value of the remaining financial instruments is determined using discounted cash flow analysis, unless the carrying value is considered to approximate to fair value.

There have been no transfers among Level 1, Level 2 and Level 3 during the year.

51 Foreign Currency Exposure

a) The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations will arise.

b) The Company uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments and forecasted transactions. The use of foreign currency forward contracts is governed by the Company's strategy, which provides principles on the use of such forward contracts consistent with Company's Risk Management Policy. The Company does not use forward contracts for speculative purposes.

c) The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting year are as follows:
